WORLD ORGANISATION FOR ANIMAL HEALTH
Protecting animals, preserving our future

IMS /OIE conference on African Swine Fever (ASF)

Objective of the conference
Bring together industry leaders, importers, exporters, meat industry analysts, government officials and academics to assess the future impact of ASF on the global meat industry and help all concerned plan their businesses at a time of great uncertainty and volatility.

The strategic issues that the conference will address include the following:

- OIE risk-based international standards for disease status recognition and international trade.
- What measures are being taken to control ASF and how effective are they likely to be?
- International cooperation for global control of ASF.
- Public/Private partnerships in the control of ASF.
- What is the outlook for the development of vaccines?
- What are the strategies to manage wild boar population?
- How quickly are the affected countries likely to recover production?
- What are the prospects for trade in all meats and who will be the winners and losers?

Venue and dates
The conference will be held in Paris from 14:00 on 31 March to 14:00 on 1 April 2020 at
Les Salons de l'Aveyron, 17 rue de l'Aubrac, 75012, Paris link to map
