The IMS is a non-profit organization catering exclusively to the requirements of the worldwide meat and livestock sector

Jean-François Hocquette, Director of Research at INRAE.

Since 1991, JF Hocquette has been a research scientist at INRAE, a public research institute (in France) working for the coherent and sustainable development of agriculture, food and the environment.

His research interests concern muscle biology, genomics and consumer studies as relevant to muscle growth or beef eating quality.

He provided leadership to nine research projects on meat including two EU-funded projects. JF Hocquette contributed to launch a new brand of premium beef. He was leader of the research team "Muscle Growth and Metabolism" (1999-2006), and Director of the Herbivore Research Unit (172 staff, 2006-2010).

He has been working for the French High Council for Evaluation of Research and Higher Education (HCERES) since 2012. In 2014 and 2016, Dr Hocquette organized the French Meat R&D congress.

He has been involved in the activities of the International Meat Research 3G Foundation and of the European Federation of Animal Science (EAAP) since 2000 and he is now president of the French Association for Animal Production (AFZ).

He is Editor of the Meat R&D journal and of three books. He was awarded by the French Meat Academy in 2010 and received the 2014 Animal Growth and Development Award and the 2021 Meats Research Award from ASAS.

He will organize the World Congress of Animal Science and the EAAP annual meeting in Lyon in 2023.
